

EVALUATION REPORT TO SCANDESIGN FOUNDATION

1.

A: My boss thought that the PNB program would be the best summer program for me because of the really good technique classes.

B: My expectations were really high with all the classes and hard work everyday, and I think that my overall experience lived up to my expectations.

C: Yes, I've been traveling abroad a lot before. I went to Seattle two summers ago on the same program, and it was so much fun to come back to a city I know and to see all the teachers and some of the same students I met two years ago.

2.

C: The best about the program is absolute the great technique classes from Peter Boal. And I always love to go to the summer schools, because you always meet so many new people. What I liked the least about the program was all the long breaks in between classes. That was really, really annoying.

3.

A: Viktoria and I arranged our own housing which was perfect for us because we're not really "dorm people".

4.

A: What I noticed a lot is that there's a lot of homeless people. That made me kinda sad, because in Denmark we have almost no homeless people. So that was weird to experience. Otherwise it's just funny to me that if you're going to the movies there's free refills, which we don't have in Denmark, and everything large sized in Denmark is a small size in America.

5.

A: I wished we had more contact with the foundation. We would have loved to maybe do some sight seeing with them. It could've been fun to maybe be able to drive around and have actual people from Seattle to show us the city and the areas around downtown. It was really hyggeligt to meet the foundation at the studios and say a personal thank you.

6.

A: I think this program is best suited for students who's 18-19 years old. I just know from experience that I was more ready and prepared to attend the program being 19 in stead of 17.

7:

A: I had a really great stay in Seattle this summer, and I can't thank you enough to make this trip for us students a reality every summer. I think I had a really good realistic expectation of this trip and I'm so happy for how things turned out this summer.

THANK YOU SO INCREDIBLY MUCH!

Best regards,

Andreas Kaas
