

Dear Scan/Design Foundation,

Thank you so much for the Scan/Design scholarship for last summer. I had such an amazing time exploring Copenhagen and taking great classes with DIS. If it wasn't for the Scan/Design scholarship, I don't think I would have been able to do nearly as much stuff as I did last summer.

The program was really incredible. At least once a week, and sometimes twice!, my class and I would go on excursions outside the classroom to help learn more about our topic. My class was all about "Hamlet," so we went to Hamlet's castle many times, Lejre, and London. The trips were so much fun!

Thank you again for aiding me in this incredible experience. I'm very grateful to the Scan/Design Foundation for helping me achieve the best summer of my life and help me learn so much about the Danish culture.

Sincerely,

Jessica Morn
